

IN THE CLAIMS:

Please amend Claims 13 to 16, and add new Claims 19 and 20, to read as follows. Note that all claims currently pending in this application, including those not presently being amended, have been reproduced below for the Examiner's convenience.

Sub F17

Blank

13. (Currently Amended) A reproduction apparatus comprising:  
reproduction means for reproducing ~~data from a medium on which~~ multi-frame data and ~~data of a number of frames constituting said multi-frame data are recorded;~~  
wherein said multi-frame data is data for displaying a plurality of pictures in one image frame, the multi-frame data representing a multi-frame composed of plural rectangular frames each having the same size; and  
processing means for processing said the multi-frame data ~~on the basis of the data of the number of frames reproduced by said reproduction~~ means so as to enlarge one of the plurality of pictures means;  
~~wherein said multi-frame data represents a multi-frame composed of plural rectangular frames each being of a same size.~~
14. (Currently Amended) An apparatus according to Claim 13, wherein said the medium comprises a magnetic disc.
15. (Currently Amended) An apparatus according to Claim 13, wherein said the multi-frame data is compressed data.

F1  
Cont

16. (Currently Amended) A reproduction method comprising the steps of:

reproducing ~~data from a medium on which multi-frame data and data of a number of frames comprising said multi-frame data are recorded, wherein said multi-frame data is data for displaying a plurality of pictures in one image frame, the multi-frame data representing a multi-frame composed of plural rectangular frames each having the same size; and~~

processing said the multi-frame data on the basis of the data of the number of frames reproduced in said reproducing step so as to enlarge one of the plurality of pictures step;

B1  
cont

~~wherein multi-frame data represents a multi-frame composed of plural rectangular frames each being of a same size.~~

17. (Original) A method according to Claim 16, wherein the medium comprises a magnetic disk.

18. (Original) A method according to Claim 16, wherein the multi-frame data comprises compressed data.

19. (New) An image pickup apparatus comprising:  
a memory which stores a number N of reduced images;  
selection means for selecting one of the N reduced images in accordance with an instruction from a user; and

*F1*  
*cond*

display means for enlarging the one reduced image selected by said  
selection means and displaying the enlarged image.

*F1*  
*cond*

20. (New) An apparatus according to Claim 19, wherein each of the N  
reduced images has the same size and shape.
